About
TOURISM
in
YOUR
PARKS
Is it really impossible to reconcile conservation and tourism?
or ... conservation and tourism could be *allied*?
That’s the point!

But... how?
communication and listening to each other
commun vision
and coordinated actions
commitment at personal and institutional level
economy and prosperity
love,
responsibility,
taking care...
Sustainable Tourism in Protected Areas is part of the sustainable development of the rural areas, and benefits the entire Region because it is good for nature, good for visitors, good for inhabitants, good for business
We need a tool!

A permanent Sustainable Tourism Forum should be established between the protected area authority and all relevant stakeholders (e.g., local municipalities, conservation and community organisations, and representatives of the tourism businesses).

The Forum is the core of the methodology.

It is an essential part of the methodology!
Protected Areas that have been awarded the Charter join the family of protected areas as partners in the Charter Network. They are required to publicise and make visible their award. They are also encouraged to engage in networking and communication events and processes.
